

Sports Scholarship

Steps to
U.S. Study

Your sport profile

This information is provided as a guide only—please review and develop a sports profile that best reflects you. You should have this completed by the start of Year 11.

Your sport profile is best not to exceed two pages and could include the following:

- Link to video footage of whole games/competition—**not** just a highlight video. Coaches want to see how you respond, your body language, etc. rather than just examples of you at your best.
- One page reference from your current coach. This should include an email address if they are comfortable being contacted directly by prospective coaches.

Your sport profile could include:

Personal Details

- Name
- Sport and position
- Level of competition - representative, state, national
- Weight and height if important for your sport
- Eligibility ID number
- SAT/ACT score or projected test date/s
- Self-calculated GPA and/or completed academic transcript template identifying your core courses
- Projected U.S. college start date
- Contact details of coach (email and phone if they are happy to talk of your abilities etc.)
- Link to footage

Sporting Achievements

- Times, results or statistics that profiles your talents (e.g. ERG results for rowers)
- Awards and achievements

Personal Message

- Personal goals
- What you can give to their program
- Why do you want to join this team and attend this college
